

Monroe County IN Death Records Index 1882 – 2024

Based on Indexes Created at the Monroe County Health Department

Editing and Production by Lee Ehman
April 2025

**Monroe County IN
Death Records Index
1882 – 2024**

Preface
April 2025

Overview: The purpose of this index is to combine into one document the separate indexes covering deaths in Monroe County IN, for the period 1882 through 2021. It provides easy access to death information, in one index, via alphabetized surnames.

- **Original Indexes:** For this time period there were separate indexes for the following:
 - o 1882-1920 (1882 was the first year in which Indiana deaths were required to be documented in each county)
 - o 1921-1940
 - o 1941-1950
 - o 1951-1960
 - o 1961-1970
 - o 1971-1975
 - o 1976-1980
 - o 1981-1985
 - o 1986-1990
 - o 1991-1992
 - o 1993-1994
 - o 1995-1996
 - o 1997-1998
 - o 1999-2000
 - o 2001-2002
 - o 2003-2004
 - o 2005-2006
 - o 2007 through 2024 (individual indexes for each year)
- **Indexing and Editing:** Each printed index was scanned into an Excel file using optical character recognition software. For indexes that were in original typewritten form this required extensive cleanup and editing due to uneven formatting in the originals. For the four indexes for 1941-1975 the originals could not be scanned. Therefore Excel files for those indexes were created by hand. Each file was proof-read line by line for quality control. Typographical errors and omissions were corrected, using Monroe County cemetery records, and the Monroe County Obituary Index (<http://www.monroe.lib.in.us/indiana/monroe-county-obituary-index>), to cross-check and add information.

Details about entries:

- Categories
 - Name: The name is entered in this order: surname, given name, middle name or initial, and modifiers such as nickname, maiden name, Sr., Jr, Rev., Dr., etc.
 - Age: Given in years except for infant deaths, when days or months are given. Some original entries give months, days and hours, but these have been shortened here. Occasionally the abbreviations “FD” (fetal death) or “stb” (stillborn) are used.
 - Date of Death (DOD): Given in the form “January 1, 1882” or “01-01-1882”. Occasionally only a year or month and year is given, and there are a small number of unknown dates. Reinternments are noted.
 - Burial Place: The name of the cemetery or crematory is usually followed by town and state abbreviation. When only the cemetery is named Monroe County is assumed.
- Omitted Information
 - Book & Page Number (Bk & Pg): These refer to the books of death certificates located in the Monroe County Health Department (119 W. 7th St, Bloomington, IN 47404; (812) 349-2543). They have been omitted in this index. If needed, the original index can be consulted by asking Research Library staff.
 - Sex & Marital Status: The original 1882-1920 index contained this information, but is omitted in this combined file. If needed, the original index can be consulted by asking Research Library staff.
 - Veteran Status: Beginning in 1991 the original indexes added veteran status. This information has been omitted in this combined index. If needed, the original index can be consulted by asking Research Library staff. For the period 1980-1990 there is a separate index of veteran information, including name, age at death, birth date, death date, place of burial, and year last served in the military. This “Veteran’s Disposition List 1980-1990” can be found on the Monroe County shelf next to this death index.

Credits: The editing of the original Health Department files was done by Lee Ehman and Ben Williams in 2014-15. The process took 18 months. Thanks to the staff of the Monroe County Health Department for their gracious assistance with the project.

Disclaimer: This is an unofficial index, created solely for the use of Monroe County History Center and other researchers. Any errors are the responsibility of the History Center. The original and official Monroe County Health Department indexes can be consulted by asking Research Library staff to retrieve them from the Library Archive Room. They can also be consulted at the Health Department. Death certificates themselves must be obtained at the Health Department.
