

IQAS Educational Credential Assessment (ECA) for Immigration

Country-specific academic document requirements

Contents

This is not an exhaustive list of countries. If your country of education is not on the list, please follow the IQAS general document requirements and submit: the awarded educational credential and transcript of record/mark sheet directly from the issuing authority.

Please ensure that your issuing authority/institution sends your transcript/mark sheet to IQAS. Country-specific documents are examples of what to provide for your application. IQAS may request additional records/information after reviewing what is submitted.

Submitting documentation does not guarantee that an assessment can be issued. IQAS must review your application and documents before a decision is made based on our policies and guidelines. For awareness, IQAS does not assess professional/vocational training and designations or trades.

There are institutions that are not recognized/accepted by IQAS. While completing the application in the IQAS Portal, you may see a warning regarding institution’s recognition or acceptance after selecting your institution from the lookup list. You are advised to carefully consider whether you wish to proceed with your application when a warning is displayed. IQAS application and courier fees are non-refundable.
